## About Viewing Documents

Course documents available through these Web pages are either plain text files, Postscript files, or PDF (Portable Document Format) files. You can read the latter using Adobe's Acrobat Reader (at least version 3.0). Acrobat Reader is available on the machines in our instructional cluster as the program `acroread', and is also freely downloadable over the Web for PCs, Macs, and UNIX systems (click [here](#), if it is not already installed on your home machine).
